MAGNETOHYDRODYNAMICS
Volume 11, Numbers 1-4, 1975
(A translation of Magnitnaya Gidrodinamika)

Volume 11, Number 1 January-March, 1975

	Eng./Russ.	
Ten Years of the Journal "Magnitnaya Gidrodinamika"	1	3
To the Editorial Staff of the Journal "Magnitnaya Gidrodinamika"	3	5
Magnetohydrodynamic Turbulence – A. B. Tsinober	5	7
Electrogasdynamic Effects and Applications – Yu. S. Bortnikov and I. B. Rubashov	18	23
Heat and Mass Transfer in a Magnetic Field – É. Ya. Blum	27	35
Hydrodynamics of Magnetizable Media – I. G. Shaposhnikov and M. I. Shliomis	37	47
Magnetohydrodynamics of Non-Newtonian Fluids – L. K. Martinson and K. B. Pavlov	47	59
Electrically Conducting Fluid in Self Magnetic Field of an Electric Current – É. V. Shcherbinin	54	68
Entry Lengths for Circular and Rectangular Ducts in Strong Magnetic Fields – J. S. Walker and G. S. S. Ludford	59	75
Interfacial Stresses in the Hydrodynamics of Liquids with Internal Rotation – A. O. Tsebers	63	79
Effects of a Magnetic Field on the Separation of a Conducting Liquid Mixture in a Thermal-Diffusion Column – A. A. Tubin and L. P. Gorbachev	66	83
Instability of Homogeneous Velocity Distribution in an Induction-Type MHD Machine – A. Gailitis and O. Lielausis	69	87
Research and Design Results in MHD Machines with Liquid-Metal Working Fluids – V. A. Glukhikh, B. G. Karasev, and I. R. Kirillov	80	102
Review of the Work of Donets Investigators in Applied Magnetic Hydrodynamics – A. D. Barinberg, A. B. Kapusta, and B. V. Chekin	87	111
Industrial Use of Magnetodynamic Devices – V. P. Polishchuk	93	118
MHD Methods and Devices in Industry – A. É. Mikel'son and V. M. Foliforov	103	129
Review of Publications by Latvian Scientists in the Journal "Magnitnaya Gidrodinamika" during the Years 1965-1974 – Yu. A. Birzvalk and M. V. Filippov	112	141
BRIEF COMMUNICATIONS		
Convection of a Ferromagnetic Liquid at a Vertical Plate – N. G. Taktarov	122	152
Effects of Conducting End Electrodes in the Flow in a Rotationally Symmetrical Field – A. B. Kapusta and I. B. Nosovitskaya	124	153
Effects of the Eddy-Current Electric Field Component on the Flow-Rate Signal from a Conduction-Type Flowmeter – G. Kh. Kirshtein and V. I. Yakushonok	127	155

Volume 11, Number 2 April-June, 1975

Dynamo Effect in Mirror-Symmetric Turbulence in the Kraichnan Direct-Interaction Approximation – P. H. Roberts	129	3
Splitting Method for the Calculation of Two-Dimensional Magnetohydrodynamic Flows – S. M. Bakhrakh and E. V. Gubkov	134	9
Motion of a Ferrosuspension in Rotating Magnetic Fields – O. A. Glazov	140	16
Natural Convection with Power-Law Distribution of Plate Temperature and Strong Magnetic Field – Ya. G. Sapunkov	146	23
Magnetohydrodynamic Flow in Roughened Tubes – A. V. Tananaev	151	29
Disintegration of Streams of Magnetic Fluid – N. G. Taktarov	156	35

	Engl.	Russ.
Model Calculations for an MHD Experiment on Stress Relaxation in a Turbulent Medium – A. S. Pleshanov, A. B. Tsinober, and M. A. Chusov	159	39
Approximate Calculation of Velocity Fields in Cylindrical and Flat MHD Channels – B. N. Siplivyi	164	45
Three-Dimensional Flow of a Viscous Conducting Liquid in Coaxial MHD Channels with an Asymmetric Magnetic Field – L. K. Kovalev, S. M.-A. Koneev, and Yu. M. Nikitin	171	54
Current Structure in the End Regions of an MHD Channel with Continuous Electrodes – L. V. Gorodzha and A. P. Rashchepkin	177	61
An MHD Induction Machine with Widening Channel. I. Theory – I. R. Kirillov and A. P. Ogorodnikov	183	68
Edge Losses in Series MHD Machines – G. P. Bazarov, É. N. Kufa, and V. S. Postnikov	189	75
Matrix Method of Calculating the Electrical Characteristics of an MHD Generator – A. O. Yakhot	194	81
Phasor Diagrams for Multimode MHD Machines – Yu. P. Kos'kin and A. Yu. Kos'kin	202	89
Hydraulic Drag in the Flowthrough Segment of Cylindrical MHD Machines – G. A. Baranov, Yu. V. Bogdanov, and A. V. Borisov	207	95
Transient Processes in Hydraulic Systems with MHD Throttles – Yu. M. Gel'fgat and A. L. Gudkov	213	102
Calculation of the Velocity Induced in the Liquid Phase of a Casting by Electromagnetic Forces – Z. N. Getselev and G. I. Martynov	217	106
Simulating the Three-Dimensional Electric Field in a Molten Metal Cast under Electromagnetic Pressure – V. A. Sedin and M. V. Khripunov	222	112
MHD Apparatus for Simulation – A. D. Barinberg, K. P. Donchenko, B. M. Mikhailovich, and V. G. Oleinik	225	115
Measuring Capabilities of Conduction Anemometers with a Uniform External Magnetic Field – L. M. Korsunskii	231	122
Feasibility of Flow-Rate Measurements by the Conduction Method without a Weir Calibration – A. S. Ginsburg, G. Kh. Kirshtein, I. P. Kvasnevskii, and V. I. Yakushonok	235	127
Measuring the Flow Rate of a Conducting Liquid with Diaphragms in a Magnetic Field – I. É. Butsenieks and É. V. Shcherbinin	239	131
BRIEF COMMUNICATIONS		
The Applicability of a Quasi-Steady-State Approach to the Investigation of Ionization Instability – A. I. Zhmakin and A. A. Fursenko	243	136
Mass Transfer from the Surface of a Cylinder in an Electromagnetic Field – G. M. Oreper	245	138
Nonself-Adjoint Jet in the Wake Stream in a Strong Longitudinal Magnetic Field – N. V. Derendyaev	247	140
Removal of Nonconducting Impurities from Liquid Metals in the Self Magnetic Field of an Electric Current – E. I. Shilova	250	142
Experimental Study of Circulation of Liquid Metals in Electromagnetic Fields – Z. N. Getselev, D. A. Kreindel', A. A. Kaptilkin, and G. I. Martynov	252	144
Decay of the Magnetic Induction along the Edge Zones in Ironless Elliptical Magnet Systems for MHD Machines – G. P. Bazarov and É. N. Kufa	255	147
Use of an MHD Conduction Pump for Casting Titanium – S. P. Serebryakov, V. I. Vasenin, and Yu. G. Kovalev	257	149
Experience with the Use of MHD AC Conduction Pumps in the Magnesium Industry – I. P. Vyatkin, A. D. Stolbova, and S. V. Mushkov	259	151
Degassing of Liquid Metals by Electromagnetic Lift – V. I. Yavoiskii, I. L. Povkh, and V. K. Khanov	262	153
CHRONICLES		
The Eighth Riga Conference on Magnetohydrodynamics	264	155

Volume 11, Number 3 July-September, 1975

	Engl.	Russ.
Optimization of the Shape of the Toroidal Model of an MHD Dynamo – Ya. Freiberg	269	3
Simultaneous Rotational Diffusion of the Magnetic Moment and the Solid Matrix of a Single-Domain Ferromagnetic Particle – A. O. Tsebers	273	8
Autooscillating MHD Flow in a Channel with a Longitudinal Magnetic Field – O. A. Likhachev and V. N. Shtern	279	15
Steady-State Magneto- and Electrohydrodynamic Flows in a Non-Newtonian Fluid – L. K. Martinson	284	21
Calculating the Flow of Nonuniformly Conducting Media in Rectangular MHD Channels – V. E. Kozyrenko	291	29
Development of Laminar MHD Flow through Channels with Coaxial Electrodes. 1. Longitudinal Flow in a Tangential Magnetic Field – V. V. Breev, Yu. S. Levitan, E. V. Murav'ev, and I. G. Panevin	299	37
Development of Laminar MHD Flow through Channels with Coaxial Electrodes. 2. Flow with Bending in a Longitudinal and in a Helical Magnetic Field – V. V. Breev, Yu. S. Levitan, E. V. Murav'ev, and I. G. Panevin	309	48
Steady-State MHD Flow in a Closed Circular Pipe Associated with Wave Propagation – M. Ya. Antimirov	314	53
Transformation of MHD Waves at a Vacuum Boundary – V. A. Pavlov	319	58
Generation of Acoustic Waves by Alfvén Waves at a Diffusive Boundary with an Un-Ionized Medium – Yu. N. Savchenko and L. P. Gorbachev	323	63
Quasilinear Theory of Hydrodynamic Turbulence and Instability of Plane-Parallel Plasma Flows – V. I. Aref'ev	329	69
Potential and Current Distributions in an MHD Channel with an External Azimuthal Magnetic Field – Yu. N. Denisov, N. I. Kirelenko, V. S. Kirilkin, and A. A. Kulandin	334	75
Establishment of the Conditions of an MHD Generator with Autoexcitation – A. P. Kuznetsov and A. S. Pleshanov	339	80
Effect of Inhomogeneity of the Conductivity on the End Effect in an MHD Generator with Solid Electrodes – V. N. Zatelepin	343	85
Electrical Processes in the End Zones of an MHD Channel with Sectionalized Electrodes – A. P. Rashchepkin	350	93
Investigation of the Characteristics of a Linear Induction Machine with Compensation of Longitudinal Edge Effect by Three-Phase Compensation Windings – A. I. Vol'dek and O. S. Shchukin	358	101
Induction Type MHD Machines with Diverging Channel – I. R. Kirillov and A. P. Ogorodnikov	363	107
Interaction between a Piston of Conducting Liquid and a Magnetic Field – G. G. Kapustyanenko, A. I. Syusyukin, and S. S. Pignastii	368	113
Calculation of the Parameters of Electromagnetic Crystallizers for the Casting of Round Ingots – Z. N. Getselev, G. V. Telyakov, P. M. Bogdashkin, V. M. Persikov, and G. I. Martynov	373	119
Calculation of the Volumetric Distribution of the Electromagnetic Forces in a Shaped Flow-Through Channel with Axial Supply of the Current – Yu. M. Gel'fgat and L. A. Gorbunov	377	124
Design of MHD Throttles for Regulating the Mass Flow Rate of Liquid-Metal Streams – Yu. M. Gel'fgat and A. L. Gudkov	382	129
Calculation of Electromagnetic Heating by an Inductor Located inside a Cylindrical Cavity – A. P. Vutsens	387	135
Experimental Study of MHD Processes in Electric-Slag Welding – I. E. Butsenieks, Ya. Yu. Kompan, V. I. Sharamkin, E. I. Shilova, and É. V. Shcherbinin	395	143
BRIEF COMMUNICATIONS		
Calculation of the Axisymmetric Flow of a Nonequilibrium Gas in Electrical and Magnetic Fields – A. A. Fursenko and A. A. Shmidt	400	149

	Engl.	Russ.
Force of the Dynamic Braking of a Linear Induction-Type MHD Machine – A. Yu. Smil'gyavichyus, V. I. Chesonis, and R. I. Yushka	402	150
Evaluation of the Velocity Field in the Channel of an MHD Machine from the Inductance of the Secondary Field – Ya. Ya. Lielpeter, É. S. Sorokina, and V. É. Tsirkunov	405	153
CHRONICLE		
Work of the Perm' Seminar on Applied Magnetic Hydrodynamics – G. E. Kirko	408	156
LETTERS TO THE EDITOR		
Similarity Criterion of the Velocities with the Modelling of the Induction Mixing of Liquid Metals – É. V. Petukhova	410	157

Volume 11, Number 4 October-December, 1975

Use of Infinite Systems for the Solution of Boundary-Value Problems in the Magnetohydrodynamics of Conducting Media – Yu. I. Malov, L. K. Martinson, and K. B. Pavlov	411	3
Monotonic and Oscillational Convection Modes of a Conducting Medium in a Magnetic Field – L. E. Sorokin, E. L. Tarunin, and M. I. Shliomis	426	22
Role of Higher Harmonics in Ferrosuspension Motion in a Rotating Magnetic Field – O. A. Glazov	434	31
Models of the Magnetization of the Colloid of a Ferromagnetic in a Hydrodynamic Flow – A. O. Tsebers	439	37
Exact Solution of Certain Nonsteady MHD Problems for an Inhomogeneous External Magnetic Field – M. Ya. Antimirov	446	45
Viscous Core Phenomenon in Axisymmetric Flow at High Stewart Numbers – G. E. Kirko	450	49
Experimental Study of the Influence of a Magnetic Field on Grid-Generated Turbulence – A. V. Volkov	453	53
Effect of a Magnetic Field on the Stream of Liquid Rotating at a Rough Surface – A. P. Anufriev and S. I. Braginskii	461	62
Laser Doppler Anemometer Study of Dispersed Electrohydrodynamic Flows – V. I. Orlanov, V. P. Klochkov, and V. P. Ivanov	467	69
Magnetic Field and Inductance Calculations for Shielded Dipole-Magnet Systems in MHD Devices – A. I. Bertinov, L. K. Kovalev, and V. P. Molchanovskii	472	75
Asymptotic Solution of the Problem on Heat Exchange in an Induction Magnetohydrodynamic Apparatus – A. M. Samsonov	480	84
Three-Dimensional Fringing Effect in Channels of Magnetohydrodynamic Devices with a Flow of a Nonuniformly Conducting Medium – Yu. M. Nikitin	485	89
Mathematical Model of a Linear Induction MHD Machine – A. S. Petrazhitskii	493	99
Transverse Fringing Effect in a Two-Channel Linear Induction Pump – V. V. Ivanov	498	105
Stability of a Conducting Strip in an Alternating Magnetic Field – Ya. Ya. Valdmanis and O. A. Kukainis	502	110
Resistive Dissipation in a Longitudinal Pipe in an MHD Pump with Axial Current Supply – Yu. M. Gel'fgat and L. A. Gorbunov	508	117
Calculations on MHD Throttles – I. V. Vitkovskii, B. G. Karasev, and I. V. Lavrent'ev	512	123
An Electromagnetic Trough Operating in the Continuous-Delivery Mode – Yu. K. Krumin'	516	127
Characteristics of the Space over which Readings of Conductive Anemometers with a Local Magnetic Field Are Averaged – L. M. Korsunskii	521	134
Effect of a Magnetic Field Nonuniform along the Stream on the Characteristics of Electromagnetic Flow-Rate Transducers – G. Kh. Kirshtein and V. A. Timofeyev	525	139

Eng./Russ.

BRIEF COMMUNICATIONS

Experimental Study of the Hydraulics of a Turbulent Ferrohydrodynamic Flow through a Circular Channel – M. M. Maiorov, É. Ya. Blum, and A. E. Malmanis 529 143

Stable Flow of a Viscous and Electrically Conducting Liquid between Two Coaxial Cylinders – L. D. Shapakidze 532 145

Flow with a Locally Nonuniform Electrical Conductivity of the Boundaries – Yu. B. Kolesnikov 535 148

Possibility of Attenuating the Longitudinal Edge Effect in Linear MHD Induction Machines by a Combination of Several Three-Phase Windings with Different Pole Pitches – A. I. Vol'dek and O. S. Shchukin 536 149
